

Summit Project Plan

Project Title	Promoting, Supporting & Developing Teacher Leaders and a Shared Leadership Model at Meyer Middle School
District/ Organization	Meyer Middle School, School District of River Falls

Project Description

The goal of this project is to improve and formalize a shared leadership model. Participating in the summit will help identify strategies to formalize a process and opportunities for teacher leadership and teacher voice.

The team will brainstorm best practices and effective structures to promote teacher voice and leadership. They will examine existing methods and leverage teacher expertise to develop a shared leadership process. The group would like to develop a school climate survey to get a better understanding of the current landscape. Ultimately, this information will be used to formalize their model to provide to other school districts.
